Connecting businesses across ASEAN

Indonesia

More than 8 in 10 Indonesian businesses plan to invest more in ASEAN, according to a HSBC survey of financial decision-makers in the region's six biggest economies. That compares to 52% that are adding to their investments outside of ASEAN.

Digital investments rank as the top strategic priority for Indonesian businesses, ahead of expansion into new markets in ASEAN. Nearly 9 in 10 expect intra-ASEAN trade to increase in 2024, with 32% expecting an increase of greater than 30%.

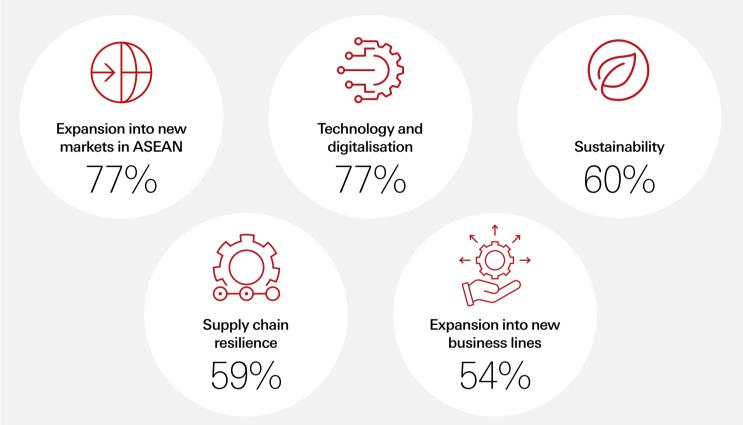

The survey also found that macroeconomic uncertainty and the rapidly shifting regulatory and policy landscape are the top barriers for Indonesian businesses looking to expand into new ASEAN markets, underlining the importance of advice and support from a banking partner.

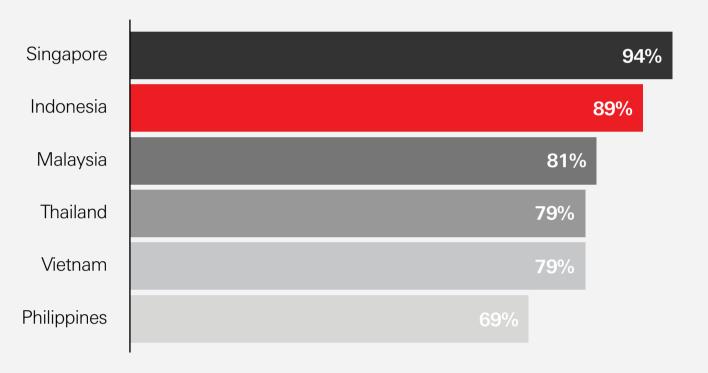

Businesses are planning to invest in technology, entering new ASEAN markets and supply chain resilience
